

# If you believe...

Join us and **put your beliefs to work** with **BC Psychosis** a new program!

We invite you to become an integral part of a highly functioning interdisciplinary team, combining clinical best practices, new and exciting research, and educational opportunities in a leading edge treatment program for persons experiencing psychosis related treatment challenges.

**BC Psychosis** is located at the University of British Columbia campus in Detwiller Pavilion. This program provides highly specialized assessment and treatment for adults whose psychotic illness has been difficult to treat and/or for whom the psychiatric diagnosis is unclear. BC Psychosis serves the province of BC. The average length of a stay for a client is 4 - 6 months.

## Why work here

- Join our specialized clinical TEAM providing patient focused care for people with psychosis.
- Canada's LARGEST center for research, post-graduate education, and professional development in clinical disciplines treating psychosis.
- Source of internationally significant RESEARCH optimizing innovative treatment interventions.
- Located on the BEAUTIFUL University of British Columbia campus; easily accessible.
- CONVENIENT staff parking (5 minutes from site) and bike racks.

## About our care model

### *Recovery, Strength, Respect, Resilience*

Collaborating with clients and families to build on strengths, talents and interests in order to foster a community of hope, growth and self-determination. The program model is person-centered and strength-based and aims to support individuals in achieving quality of life by offering a range of evidence-based clinical services.
