

It Takes

STRENGTH

to Break Down Walls

**January 13 & 14, 2011
Victoria Inn Winnipeg**

Manitoba Adolescent Treatment Centre

The Manitoba Adolescent Treatment Centre has evolved from a small residentially based mental health facility for children and youth to a modern, innovative organization providing a spectrum of mental health services. Developing and implementing a broad array of approaches, which meet the needs of young people and their families, has been a huge accomplishment. Professionals have worked tirelessly to move from residential treatment as the primary treatment option, to diverse approaches which are sensitive to consumer, family and community participation and empowerment.

New ideas, new partnerships, and new energy have created a continuum of knowledge which leads to successful outcomes.

This conference is designed to share the knowledge and skills that have grown over the past quarter-century with all those who are interested in better mental health for young people and their families. If you are a professional working with children, youth, and young adults, and want to improve your knowledge and skills, you will want to attend this conference.

Watch for more information on registration
and speakers in the coming weeks.

If you have any questions or require more information at this time contact:
